

Tender Addendum No. 1

Date: February 28th, 2022

Project: Supply and delivery of one (1) new, current production, cab and tandem chassis for snow plow, ice control, and dump truck operations.

To: All Tenderers

This Addendum consists of 8 revisions to a tender for the supply and delivery of one (1) new, current production, cab and tandem chassis for snow plow, ice control, and dump truck operations.

Please confirm you have received this Addendum by emailing David Thomas at dlpublicworks@nf.aibn.com.

Please make the following changes/additions to the Bid Documents.

Equipment Specifications

Line 37 – Michelin XDS2 are acceptable tires for the equipment.

Line 67 – It is acceptable to have the air horn located under the hood.

Line 71 – It is acceptable to have look down mirror without safety glass in the door.

Line 79 – Remove the information regarding the Maxforce engine.

Line 85 – Providing an epoxy coating to the oil pan will satisfy the corrosion requirements for the oil pan.

Line 90 – Master electrical power disconnect can be located either between the two seats or on the left-hand side of the cab.

Line 92 – Battery to be located on the exterior of the equipment and to be located in a seal and vented non corrosive container.

Line 94 - Alternator must have minimum 160 A.
